DREDGES FOR CANAL, GHS BUILDERS; PUMP PRODUCTION BY USSR PLANTS

SEND FIRST HEAVY MODELS -- Tashkent, Pravda Vostoka, 4 Apr 52

The Gor'kiy Krasnoye Sormovo Plant recently sent the builders of the M. A. Turkmenev Canal their first heavy dredges. The plant's Sormovskiy-7 dredge has a productivity of 350 cubic meters of earth per hour.

50X1-HUM

CAN BE RIGGED AS SUCTION, LADDER DREDGE -- Minsk, Sovetskaya Belorussiya, 11 Apr 52

A. M. Tsarevskiy and B. I. Pugavko, members of the All-Union Scientific Research Institute of Hydraulic Engineering and Land Improvement, together with Mikhail A. Gashayev, director of the Lower Amu-Dar'ya Machinery and Excavator Station, -- all Stalin Prize winners -- designed and put into production the 8-PZU suction dredge, which is used in cleaning out the Amu-Dar'ya irrigation canals. The dredge has a flat-bottom metal hull, 4 meters broad and 15 meters long. Its suction pump is powered by a 150-horsepower motor. The dredges can be rigged with either cutter heads or endless bucket chains. After extraction, the earth is pumped, in water solution, a distance of 200-250 meters to one side of the canal.

STALINGRAD SHIPYARD ASSEMBLES DREDGE -- Tbilisi, Zarya Vostoka, 26 Apr 52

A new 1,000-30 suction dredge is now being assembled at the Stalingrad Shipyards. When completed, it will be sent to the Stalingrad GHS project.

BUILD DREDGES FOR KAKHOVKA GES -- Kiev, Pravda Ukrainy, 29 Apr 52

Workers of the Leningrad Elektromontazh Trust and of the Zaporozh'ye Gidromontazh Plant are building heavy suction dredges for the Kakhovka GES project.

FILL ORDERS FOR TSIMLYANSKAYA GES -- Frunze, Sovetskaya Kirgiziya, 14 May 52

The Krasnoyarsk Sibirskiy Heavy Machine Building Plant is filling orders for the builders of the Tsimlyanskaya GES.

COMPLETE SIX PUMPS --Yerevan, Kommunist, 9 Apr 52

The Poti Dredging-Pump Plant has completed six Novaya Kolkhida dredging pumps for the builders of the Main Turkmen Canal.

In 1952, the plant has built dozens of dredging pumps for the great construction projects, as well as for Azerbaydzhan SSR and the Central Asian republics.

EXCEEDED 3-MONTH QUOTA -- Yerevan, Kommunist, 9 Apr 52

During the first quarter 1952, the Yerevan Small Hydroturbines Plant put out 80 above-plan pumps. Molders in the foundry are establishing speed records in turning out molds for the first and second-stage housings for IK pumps, and molds for the 2K-6 spiral chambers for centrifugal pumps.

Yerevan, Kommunist, 25 Apr 52

The Yerevan Small Hydroturbines Plant has met the half-year plan for supply of products to the great construction projects, sending them dozens of centrifugal pumps during that period.

WORK TO BEAT PLAN -- Tashkent, Pravda Vostoka, 15 Apr 52

In observation of May Day, the Andizhan Stremashina Plant is striving to exceed its April plan for the production of 8-245 pumps.

PUMP WILL CLEAR BUILDINGS OF DUST -- Moscow, Vechernyaya Moskva, 8 Apr 52

The Suzy Machine Building Plant imeni Frunze has begun production of the SVN-25 rotary vacuum pump. It is designed for use in centralized dust-elimination in high buildings. Mounted on a metal plate with the electric motor which runs it, it is a compact unit which can be installed easily in any story.

The first 45 of these aggregates are to go to buildings of the Moscow State University.
